

Brayan Ramírez

Product Designer | Fintech & B2B Payment Systems

LinkedIn: [Brayan Ramírez](#)

Email: martinezbrayanramirez@gmail.com

PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience building and scaling B2B fintech products across Latin America. Led the end-to-end design of localized payment infrastructure, including PIX and Boleto, during Clara’s expansion into Brazil, contributing to an 87% increase in platform payment adoption. Experienced in navigating regulated banking environments and translating complex systems into intuitive user experiences.

PROFESSIONAL EXPERIENCE

Clara — Product Design Specialist

Mar 2025 – Present

- Leading cross-market product initiatives across Mexico and Brazil
- Designing scalable B2B payment systems in regulated financial environments
- Translating compliance and banking infrastructure constraints into seamless user flows
- Driving product consistency across markets while supporting international expansion

Clara — Product Designer

Jul 2023 – May 2025

- Designed from scratch localized payment flows for Brazil, including PIX and Boleto
- Adapted existing Mexican bank transfer systems to Brazilian financial infrastructure
- Contributed to an 87% increase in platform payment usage by aligning flows with local market behavior
- Redesigned transaction experiences to comply with evolving banking regulations
- Structured end-to-end user journeys from discovery through final UI implementation

Clara — Global Content Designer / UX Writer

Oct 2022 – Jul 2023

- Built multilingual UX frameworks (Spanish, English, Portuguese) to support international expansion
- Standardized payment-related terminology across markets
- Improved clarity and consistency across core financial touchpoints
